#### **City of Montgomery Recycling & Reuse Facility**

Do you participate in the City of Montgomery Sanitation services? If so, your garbage will now be taken to the new City of Montgomery Recycling and Reuse Facility, run by RePower South (RPS).

Recycled commodities such as cardboard, paper, plastic bottles, metals/cans, etc. are baled and sold into established commodity markets!

Non-recyclable paper and plastics will get broken down into smaller than 2 inch pieces, baled, and sold as a coal alternative product.

Find out more about RPS and what they’re doing with our garbage by clicking [HERE](#).
